Dear Joshua:

Glad to hear that things  
are going well.

Yes, insitollous shows the  
phenomenon you mention in 1633. I hope  
we'll get this work written up in  
the near future.

We have been discussing a  
neurosp inform. service. We'll discuss  
it further when we get to CalTech & can  
talk it over with Emerson. Perhaps  
it should be expanded to include other  
microorganisms.

Best regards,

Bender
